

The International Charitable Foundation "Alliance for Public Health" announces external recruitment to fill the following position:

Project Manager: Technologically Mediated Service Delivery Platform

The International Charitable Foundation "Alliance for Public Health" (Alliance) is a leading non-governmental professional organization which makes a significant impact on the epidemics of HIV/AIDS, tuberculosis, viral hepatitis, and other dangerous diseases in Ukraine in collaboration with key state partners and civil society organizations through providing financial and technical support to relevant programs covering over 300,000 members of the most vulnerable populations in Ukraine, which is the highest coverage in Europe.

Purpose: to manage the development, testing, rollout and ongoing operations of innovative technologically mediated platform for marketing and delivery of HIV detection and care services as part of PEPFAR/USAID funded HealthLink project aimed to significantly improve access to HIV detection, care and treatment services.

Contract type: civil contract

Core Requirements:

- Experience in the development and management of technologically mediated programs in healthcare;
- Good understanding of HIV care and available technology to facilitate access to health services;
- Excellent command of Ukrainian, Russian and English;
- Good understanding of e-health and other elements of the emerging national health information system;
- Ability to think creatively and innovatively;
- Strong analytical, budgeting and project management skills;
- Professional judgment and discretion based on extensive experience;
- Analytical skills to forecast and identify trends and challenges;
- Relevant academic degree;
- Strong commitment to confronting HIV/AIDS and motivation to work.

We offer: work in a dynamic organization with encouraging working environment, attractive remuneration and benefits package, opportunities for professional and career development and growth.

For additional information on the organization as well as its programmatic activities and the positions announced, please visit our web site: <http://www.aph.org.ua/>

How to apply: Please send your CV and a covering letter in English and Ukrainian/Russian to vacancy@aph.org.ua. Subject line should contain "ref: **Project Manager: TMSDP**".

Deadline for applications: 6 pm, May 30th, 2018.

Only successful candidates will be contacted for an interview.

The International Charitable Foundation "Alliance for Public Health" is committed to equal opportunities and welcomes applications from appropriately qualified people from all sections of the vulnerable groups devoted to Public and Personal Health issues.

DESCRIPTION OF SERVICES

Title: Project Manager: Technologically Mediated Service Delivery Platform

Department: Programs

Contract Type: civil agreement

PURPOSE: to manage the development, testing, rollout and ongoing operations of innovative technologically mediated platform for marketing and delivery of HIV detection and care services as part of PEPFAR/USAID funded HealthLink project aimed to significantly improve access to HIV detection, care and treatment services.

REQUIREMENTS:

- Experience in the development and management of technologically mediated programs in healthcare;
- Good understanding of HIV care and available technology to facilitate access to health services;
- Excellent command of Ukrainian, Russian and English;
- Good understanding of e-health and other elements of the emerging national health information system;
- Ability to think creatively and innovatively;
- Strong analytical, budgeting and project management skills;
- Professional judgment and discretion based on extensive experience;
- Analytical skills to forecast and identify trends and challenges;
- Relevant academic degree;
- Strong commitment to confronting HIV/AIDS and motivation to work.

DUTIES AND RESPONSIBILITIES:

- Conduct conceptual and strategic analysis of technologically mediated opportunities in healthcare delivery with the focus on HIV detection and expedient access to care and treatment;
- Prioritize, select of the most suitable technological solutions, set terms of reference for specific components and activities, perform the implementation of prioritized specific tasks and/or manage and coordinate consultants, contractors, and colleagues involved in demand generation, service delivery, capacity development, quality assurance and other relevant activities;
- Ensure increasing demand for and supply of HIV testing and treatment services offered through technologically mediated service delivery platform;
- Generate demand among health and social care providers and clients/patients for professional development, support, training, and participation in HIV detection and care programs;
- Liaise with the relevant governmental agencies, community associations and groups and other stakeholders in order to market and coordinate the delivery of services, exchange strategic information, receive required support and integrate the platform in e-health and other relevant national information, management and service delivery systems;
- Liaise with colleagues, coordinate and integrate activities with other interventions and elements of HealthLink project and other relevant activities of the Alliance for Public Health;
- Adequately and effectively present the activities of the platform to donors and other stakeholders;
- Actively explore funding sources and partnerships for sustainable functioning of the platform.
- Continuously improve professional and personal skills relevant to the job through self-training and development.
- Undertake other duties as required.

REPORTS TO: Senior Adviser
