

The International Charitable Foundation “Alliance for Public Health” announces external recruitment of Consultant on assessment of the HIV testing yield, linkage to care rate and rate of ART initiation of the main HIV case-detection and linkage to care programs.

DESCRIPTION OF SERVICES

Goal: To provide technical support on assessment yields for different interventions and programs as well as data quality assessment.

SCOPE OF WORK:

1. Prepare the specific data requests for different data holders.
2. Calculate HIV testing yield, linkage to care rate and rate of ART initiation for the participants of the HIV case-detection and linkage to care programs / modalities of service delivery (further “programs”).
3. Observe and describe the healthcare “entry points” of the programs / modalities of service delivery.
4. Develop clients/patients profiles at different entry points and in different programs / modalities of service delivery.
5. Assess the overlap between different HIV testing programs / modalities of service delivery.
6. Describe the threats in data quality which may cause incorrect yield calculation.
7. In close collaboration with relevant teams, develop technical report and presentation based on the results of the analysis.

REQUIREMENTS:

- Minimum 10 years of working experience in epidemiology, HIV program planning and data analysis.
- High University Degree. (Medical, Public Health, Social Science).
- Advanced user of SPSS, Microsoft Access, Excel and other data analysis and visualization tools.
- Good command of written and spoken Ukrainian, Russian and English.

QUALITIES:

- Ability to work under tough deadlines, independently as well in the teams.
- Strong analytical and research skills.
- Ability for coordination, including working with the multi-stakeholders at the national level.

REPORTS TO: Associate director on strategic information, monitoring and evaluation

HOW TO APPLY: Please send your CV in Ukrainian or English to klymenko@aph.org.ua.

Subject line should contain **“ref: Consultant for yield assessment”**.

Deadline for applications: **6 pm, November 28, 2018**.

Only successful candidates will be contacted for an interview.

The International Charitable Foundation “Alliance for Public Health” is committed to equal opportunities and welcomes applications from appropriately qualified people from all sections of the community.
