

The International Charitable Foundation “Alliance for Public Health” announces external recruitment of UI/UX designer (optimized HIV case finding) activities at PORT (program optimization and research team).

DESCRIPTION OF SERVICES

Purpose: to provide UI design for CITIa. CITIa – is a mobile application which is aimed to collect information about HIV positive clients who are receiving case-management support services.

Duties:

1. Develop an UI for mobile application UI;
2. Provide an expert assessment of the UX component and support with recommendations for improvement;
3. Communicate with the development team on the implementation of design to the application.

Deadline of service delivery: December 15, 2019

Requirements:

4. 2+ years of web design experience;
5. Advanced user of Adobe Photoshop/Sketch, Adobe Illustrator;
6. Experience in mobile application design;
7. Ability to explain your decisions with understandable non-design language.

How to apply: Please send your CV and portfolio link to kuznetsova@aph.org.ua

Deadline for applications: **13.10.2019**

The International Charitable Foundation “Alliance for Public Health” is committed to equal opportunities and welcomes applications from appropriately qualified people from all sections of the community.
